

# Wall Sticker

## Installation Instructions

Your Wall Sticker has “Post-It-Note” like adhesive and will not damage your wall.

The sticker is removable so you can GENTLY remove it from the wall to reapply it in either the same location or a new location.

**NOTE:** If there is loose or peeling paint on the surface, removing the sticker may also remove the loose or peeling paint. Also, low VOC paint can prevent proper adhesion.

- 1 - A two person installation is easiest.
- 2 - Remove the sticker backer about half way down.
- 3 - Place the top of the sticker where you want it on the wall then press into place with your hand starting in the center and working down or out.
- 4 - Remove the rest of the backer holding the remaining sticker away from the wall.
- 5 - Using your hand, smooth the sticker into place using downward strokes.
- 6 - If you have any bubbles, gently lift the corner or edge nearest the bubble and reapply the sticker with your hand smoothing the bubble out the edge.
- 7 - Continue to remove all the bubbles.
- 8 - Once your are finished, press the entire sticker firmly against the wall using a downward or sideways motion with your hand.

To remove the sticker, peel a corner off then gently pull outward lifting the sticker off the wall.
